1. A facile Friedel–Crafts acylation for the synthesis of polyethylenimine-grafted multi-walled carbon nanotubes as efficient gene delivery vectors
2. A fluorescent aptasensor based on a DNA pyramid nanostructure for ultrasensitive detection of ochratoxin A
3. A label-free fluorescent aptasensor for selective and sensitive detection of streptomycin in milk and blood serum
4. A novel atheroprotective role of MF59-like adjuvant when co-administered with CETP vaccine in rabbit model of atherosclerosis
5. A novel colorimetric sandwich aptasensor based on an indirect competitive enzyme-free method for ultrasensitive detection of chloramphenicol
6. A novel electrochemical aptasensor based on arch-shape structure of aptamer-complimentary strand conjugate and exonuclease I for sensitive detection of streptomycin
7. A novel electrochemical aptasensor based on H-shape structure of aptamer-complimentary strands conjugate for ultrasensitive detection of cocaine
8. A novel electrochemical aptasensor based on Y-shape structure of dual-aptamer-complementary strand conjugate for ultrasensitive detection of myoglobin
9. A novel electrochemical aptasensor for ultrasensitive detection of fluoroquinolones based on single-stranded DNA-binding protein
   A novel fluorescent aptasensor based on gold and silica nanoparticles for the ultrasensitive detection of ochratoxin A
10. A novel fluorescent aptasensor based on hairpin structure of complementary strand of aptamer and nanoparticles as a signal amplification approach for ultrasensitive detection of cocaine
11. A novel fluorescent aptasensor based on silica nanoparticles, PicoGreen and exonuclease III as a signal amplification method for ultrasensitive detection of myoglobin
12. A novel M-shape electrochemical aptasensor for ultrasensitive detection of tetracyclines
13. A review of Neuropharmacology Effects of Nigella sativa and Its Main Component, Thymoquinone
14. A selective and sensitive fluorescent aptasensor for detection of kanamycin based on catalytic recycling activity of exonuclease III and gold nanoparticles
15. Acute, subacute, and cell toxicity of the aqueous extract of Lippia citriodora
16. Alkyl cross-linked low molecular weight polypropyleneimine dendrimers as efficient gene delivery vectors
17. An electrochemical aptasensor based on gold nanoparticles, thionine and hairpin structure of complementary strand of aptamer for ultrasensitive detection of lead
18. Antitherosclerosis effect of different doses of CETP vaccine in rabbit model of atherosclerosis.
19. Antibacterial Activity of Silver Nanoparticle-Loaded Soft Contact Lens Materials: The Effect of Monomer Composition
20. Application of DPD in the design of polymeric nano-micelles as drug carriers
   Aptamer application in targeted delivery systems for diagnosis and treatment of breast cancer
21. Aptamer based fluorometric acetamiprid assay using three kinds of nanoparticles for powerful signal amplification
22. Aptamers as smart ligands for nano-carriers targeting
23. Aptasensors for quantitative detection of kanamycin
24. Aqueous and Ethanolic Extracts of Boswellia serrata Protect Against Focal Cerebral Ischemia and Reperfusion Injury in Rats
26. Basophil mediated pro-allergic inflammation in vehicle-emitted particles exposure
   Berberis Vulgaris and Berberine: An Update Review
27. Biocompatible polymersomes-based cancer theranostics: Towards multifunctional nanomedicine
28. Biodegradable nano-polymers as delivery vehicles for therapeutic small non-coding ribonucleic acids
29. Black Cumin (Nigella sativa) and Its Active Constituent, Thymoquinone: An Overview on the Analgesic and Anti-inflammatory Effects
30. Cardiotoxicity of nanoparticles.
32. Cell-SELEX-based selection and characterization of a G-quadruplex DNA aptamer against mouse dendritic cells
33. Cinnamon effects on metabolic syndrome: A review based on its mechanisms
34. Co-Delivery of Epirubicin and siRNA Using Functionalized Mesoporous Silica Nanoparticles Enhances In vitro and In vivo Drug Efficacy.
35. Colorimetric and ratiometric aggregation assay for streptomycin using gold nanoparticles and a new and highly specific aptamer
36. Concentration of heavy metals in Iranian market rice and associated population health risk
37. Considering Rotatability of Hydroxyl Groups for the Active Site Residues of MMP-13 in Retrospective Virtual Screening Campaigns

38. Controlled release of betamethasone from vitamin E-loaded silicone-based soft contact lenses

39. Crocin prevents haloperidol-induced orofacial dyskinesia: Possible an antioxidant mechanism

40. Crocin-Induced Endothelium-Dependent Relaxation in Isolated Rat Aorta

41. CrossDock: a tool for performing cross-docking using Autodock Vina

42. Determination of methanol in Iranian herbal distillates.

43. Developing a CoMSIA model for inhibition of COX-2 by resveratrol derivatives

44. Development of new active packaging film made from a soluble soybean polysaccharide incorporating ZnO nanoparticle

45. Dextran-b-poly (lactide-co-glycolide) polymersome for oral delivery of insulin: In vitro and in vivo evaluation

46. Dextran-poly lactide-co-glycolide polymersomes decorated with folate-antennae for targeted delivery of docetaxel to breast adenocarcinima in vitro and in vivo

47. Double targeting and aptamer-assisted controlled release delivery of epirubicin to cancer cells by aptamers-based dendrimer in vitro and in vivo

48. Double targeting, controlled release and reversible delivery of daunorubicin to cancer cells by polyvalent aptamers-modified gold nanoparticles

49. Effect of alcoholic extract of aerial parts of Rosmarinus officinalis L. on pain, inflammation and apoptosis induced by chronic constriction injury (CCI) model of neuropathic pain in rats

50. Effect of catechins, green tea extract and methylxanthines in combination with gentamicin agair staphylococcus aureus and pseudomonas aeruginosa-Combination therapy against resistant bacteria

51. Effect of exposure to diazinon on adult rat’s brain

52. Effect of Oral Silymarin Administration on Prevention of Radiotherapy Induced Mucositis: A Randomized, Double-Blinded, Placebo-Controlled Clinical Trial.

53. Effectiveness and Clinical Outcomes of a Two-Step Implementation of Conservative Oxygenation Targets in Critically Ill Patients: A before and after Trial
54. Effects of berberine on acquisition and reinstatement of morphine-induced conditioned place preference in mice

55. Effects of Dimethyl Sulfoxide on Neuronal Response Characteristics in Deep Layers of Rat Barrel Cortex

56. Electrochemical aptamer based assay for the neonicotinoid insecticide acetamiprid based on the use of an unmodified gold electrode

57. Estimating the Time to Benefit for Preventive Drugs with the Statistical Process Control Method: An Example with Alendronate

58. Evaluation of anti-cancer activity of PLGA nanoparticles containing crocetin

59. Evaluation of chemical modification effects on DNA plasmid transfection efficiency of single-walled carbon nanotube–succinate–polyethylenimine conjugates as non-viral gene carriers
   Evaluation of intravenous lipid emulsion on haloperidol-induced hypotension in rabbits

60. Evaluation of mechanism for antihypertensive and vasorelaxant effects of hexanic and hydroalcoholic extracts of celery seed in normotensive and hypertensive rats

61. Evaluation of teratogenic effects of crocin and safranal, active ingredients of saffron, in mice

62. Evaluation of the neuroprotective effect of silymarin on acrylamide-induced neurotoxicity

64. Fabrication of aptamer decorated dextran coated nano-graphene oxide for targeted drug delivery
   Feature selection using genetic algorithm for breast cancer diagnosis: Experiment on three different datasets

65. Folate receptor-targeted multimodal polymersomes for delivery of quantum dots and doxorubicin to breast adenocarcinoma: In vitro and in vivo evaluation

66. Gene delivery efficiency and cytotoxicity of heterocyclic amine-modified PAMAM and PPI dendrimers

67. Gene delivery to neuroblastoma cells by poly (L-lysine)-grafted low molecular weight polyethylenimine copolymers

68. Glycyrrhetinic acid and its derivatives: Anti-cancer and cancer chemopreventive properties, mechanisms of action and structure-cytotoxic activity relationship
69. Grapes (Vitis vinifera) as a Potential Candidate for the Therapy of the Metabolic Syndrome

70. Graphene oxide-cationic polymer conjugates: Synthesis and application as gene delivery vectors

71. Relaxant activity of safranal in isolated rat aortas is mediated predominantly via an endothelium-independent mechanism-Vasodilatory mechanism of safranal

72. Identification of possible cytotoxicity mechanism of polyethylenimine by proteomics analysis

73. Immunosuppression following dietary aflatoxin B1 exposure: a review of the existing evidence

74. Improvement in the drug delivery and anti-tumor efficacy of PEGylated liposomal doxorubicin by targeting RNA aptamers in mice bearing breast tumor model

75. In Vivo Time-Dependent Radio-Protective Effect Of Lycopene Against Whole-Body Gamma Radiation In Mice

76. Incidence rate and pattern of clinically relevant potential drug-drug interactions in a large outpatient population of a developing country

77. Increased mRNA Level of Orexin1 and 2 Receptors Following Induction of Experimental Autoimmune Encephalomyelitis in Mice

78. Induction of a balanced Th1/Th2 immune responses by co-delivery of PLGA/ovalbumin nanospheres and CpG ODNs/PEI-SWCNT nanoparticles as TLR9 agonist in BALB/c mice

79. Inhibition of Akt phosphorylation attenuates resistance to TNF-α cytotoxic effects in MCF-7 cells, but not in their doxorubicin resistant derivatives.

80. Molecularly imprinted polymer nanoparticles-based electrochemical sensor for determination of diazinon pesticide in well water and apple fruit samples.

81. In-vivo study of naltrexone hydrochloride release from an in-situ forming PLGA-PEG-PLGA system in the rabbit

82. Iranian journal of basic medical sciences: 2015 at a glance

83. Lateral flow based immunobiosensors for detection of food contaminants

84. Medical information sources used by specialists and residents in Mashhad, Iran

85. Methamphetamine-induced toxicity:
   The role of autophag
86. MicroRNAs regulate mitochondrial apoptotic pathway in myocardial ischemia-reperfusion-injury

87. MiR 221/222 as New Players in Tamoxifen Resistance.

88. Modulation of JAK2, STAT3 and Akt1 proteins by granulocyte colony stimulating factor following carbon monoxide poisoning in male rat

89. Molecular mechanisms and biomedical applications of glucosamine as a potential multifunctionaltherapeutic agent.

90. Myocardial perfusion and left ventricular function indices assessed by gated myocardial perfusion SPECT in methamphetamine abusers

91. Nanomaterial coatings applied on stent surfaces
92. Nanoparticles application in high sensitive aptasensor design
93. Neuroprotective and memory enhancing effects of auraptene in a rat model of vascular dementia: Experimental study and histopathological evaluation
94. Nurses' information seeking behavior for clinical practice: A case study in a developing country

95. Optimal control therapy and vaccination for special HIV-1 model with delay

96. P53-Derived peptides conjugation to PEI: an approach to producing versatile and highly efficient targeted gene delivery carriers into cancer cells
97. PAMAM-pullulan conjugates as targeted gene carriers for liver cell

98. Photo catalytic degradation of linear alkylbenzene sulfonic acid

99. Phytochemical Evaluation and Antioxidant Activity of Essential Oil, and Aqueous and Organic Extracts of Artemisia dracunculus
100. Polyethylenimine-functionalized carbon nanotubes tagged with AS1411 aptamer for combination gene and drug delivery into human gastric cancer cells

101. Preparation and characterization of uniform-sized PLGA nanospheres encapsulated with oleic acid-coated magnetic-Fe3O4 nanoparticles for simultaneous diagnostic and therapeutic applications
102. Preparation and evaluation of polyethylenimine-functionalized carbon nanotubes tagged with STR1 aptamer for targeted delivery of Bcl-xL shRNA into breast cancer cells.

103. Protective and hypoglycemic effects of celery seed on streptozotocin-induced diabetic rats: experimental and histopathological evaluation
104. Protective effect of crocin against apoptosis induced by subchronic exposure of the rat vascular system to diazinon

105. Protective effect of erythropoietin on myocardial apoptosis in rats exposed to carbon monoxide

106. Protective effect of silymarin against chemical-induced cardiotoxicity.

107. Proteomics screening of adenosine triphosphate-interacting proteins in the liver of diazinon-treated rats

108. Reactive oxygen species mediate TNF-cytotoxic effects in the multidrug-resistant breast cancer cell line MCF-7/MX

109. Recent advances on biocompatible and biodegradable nanoparticles as gene carriers. Recognition and characterization of erythropoietin binding-proteins in the brain of mice

110. Review of the Pharmacological Effects of Vitis vinifera (Grape) and its Bioactive Constituents: An Update

111. Role of orexin-a in experimental autoimmune encephalomyelitis

112. Rosemary (Rosmarinus officinalis) as a potential therapeutic plant in metabolic syndrome: a review

113. Screening and identification of SUMP-proteins in sub-acute treatment with diazinon

114. Self-assembled supramolecular hydrogel based on PCL-PEG-PCL triblock copolymer and γ-cyclodextrin inclusion complex for sustained delivery of dexamethasone.

115. Simultaneously Load and Extended Release of Betamethasone and Ciprofloxacin from Vitamin E-Loaded Silicone-Based Soft Contact Lenses

116. Smart AS1411-aptamer conjugated pegylated PAMAM dendrimer for the superior delivery of camptothecin to colon adenocarcinoma in vitro and in vivo

117. Study and evaluation of nucleolin-targeted delivery of magnetic PLGA-PEG nanospheres loaded with doxorubicin to C6 glioma cells compared with low nucleolin-expressing L929 cells

118. Synthesis, Characterization and Fluorescence Properties of Zn(II) and Cu(II) Complexes: DNA Binding Study of Zn(II) Complex

119. Tactile learning in rodents: Neurobiology and neuropharmacology
120. Targeted Delivery of Epirubicin to Cancer Cells by Polyvalent Aptamer System in vitro and in vivo
   Targeted delivery of vincristine to T-cell acute lymphoblastic leukemia cells using an aptamer-modified albumin conjugate
   Teratogenic effect of verbascoside, main constituent of Lippia citriodora leaves, in mice
121. Teratogenic effects of silymarin on mouse fetuses.
122. The Comparison of Biodistribution, Efficacy and Toxicity of Two PEGylated Liposomal Doxorubicin Formulations in Mice Bearing C-26 Colon Carcinoma: A Preclinical Study
123. The effect of O-1602, an atypical cannabinoid, on morphine-induced conditioned place preference and physical dependence
124. The effect of registry-based performance feedback via short text messages and traditional postal letters on prescribing parenteral steroids by general practitioners-A randomized controlled trial
125. The effect of TiO2 nanoparticles and UV irradiation on photocatalytic degradation of Imidaclorpride
126. The Effect of Verbascoside in Neuropathic Pain Induced by Chronic Constriction Injury in Rats
127. The effect of Zataria multiflora Boiss hydroalcoholic extract and fractions in pentylene tetrazole-induced kindling in mice
128. The influence of hydro-ethanolic extract of Portulaca oleracea L. on Th1/Th2 balance in isolated human lymphocytes
129. The Possible Role of Toll-Like Receptor 4 in the Pathology of Stroke
130. The Comparison of Biodistribution, Efficacy and Toxicity of Two PEGylated Liposomal Doxorubicin Formulations in Mice Bearing C-26 Colon Carcinoma: a Preclinical Study.
131. The effect of nano-curcumin on HbA1c, fasting blood glucose, and lipid profile in diabetic subjects: a randomized clinical trial.
132. The Protective Role of Phenolic Compounds Against Doxorubicin-induced Cardiotoxicity:
A Comprehensive Review.

133. Therapeutic effects of saffron (Crocus sativus L.) in digestive disorders: A review

134. Two dimension (2-D) graphene-based nanomaterials as signal amplification elements in electrochemical microfluidic immune-devices: Recent advances

135. Gene delivery efficiency and cytotoxicity of heterocyclic amine-modified PAMAM and PPI dendrimers

136. Satureja hortensis L. Methanolic Extract and Essential Oil Exhibit Antitumor Activity

137. Iranian Journal of Basic Medical Sciences, 2015 at a glance

138. The Role of Natural Products in the Prevention and Treatment of Multiple Sclerosis

139. Ameliorative effect of tamarind leaf on fluoride-induced metabolic alterations

140. Antioxidant and anti-inflammatory properties of the citrus flavonoids hesperidin and hesperetin: an updated review of their molecular mechanisms and experimental models.
